

On behalf of the Preparation Committee of MBS Alumni Association Hong Kong ("MBSAAHK"), I am pleased to present you a summary activity report for the year 2004.

First, was the formation of alumni association, the final draft of the Memorandum & Articles ("M&A") of the association was completed and was waiting for the approval from UK office. The M&A has laid down the legal foundation of our alumni formation and we believe that the first management board of the association will be inaugurated in September this year. The preparation of the M&A is a long hour job, only for those have no hesitation to full commitment would be able to accomplish the task. I would like to take this opportunity to thank for the members of our structure sub-group for their tremendous effort and devotion.

Next, our social gathering has achieved overwhelming response. High participation rate indicated the commitment of alumni and students to MBS family. We have organized two evening network drinks, a boat cruise and several academic seminars in 2004. Activities will be held in the first quarter of 2005 including a join university team building exercise, a reunion party, academic seminars and a visit to Mai Po. The success of our MBS network does not rely on a small group of people but every single member, their input, feedback and advice are inevitably important. We are delighted to see more members' involvement and their eagerness to stand for board election in the coming annual meeting. The association needs support from each member and it is time to subscribe for membership and to build a successful MBS alumni network together.

It is our prime objective to promote the brand name of MBS through various means and the following mission statements show our undertaking for long:

1. To enhance the image of MBS and MBA distance learning programme both locally and internationally;
2. To promote our unique professional excellence;
3. To share our learning experience and nurture our next generation talents;
4. To improve our communication with MBS and develop more joint university activities with other alumni associations;
5. To facilitate efficient internal communication among our alumni;
6. To better serve the local business sectors and public community.

Finally we wish you all a Happy New Year, and most importantly your future participation in every single event held by the association.

Tellurium Chung
Chief Convenor
